Bhopal, Madhya Pradesh, 462042, 9981815747, [ananya.geetey.2025@sse.ac.in](mailto:ananya.geetey.2025@sse.ac.in)

---

### Career Objective

I am looking forward to a career in Data Science/Product Data Scientist. I have strong skills in Python, PowerBI, Excel, R, SQL and an advanced knowledge of Data Analysis, Machine Learning, Data Modelling, Econometrics and building dashboards.

I am self-motivated, goal oriented, sincere and a team player. I am keen to contribute towards building data-driven products and services and solving complex business problems through analytics.

---

### Education

#### M.Sc. Economics (Data Analytics)

*expected* 2027

Symbiosis School of Economics

*Symbiosis International University, Pune CGPA: 8.09*

#### BSc. in Economics and Analytics

2025

*Christ University Pune Lavasa*

Concentration in Data Science & Economics; graduated with 3.8 G.P.A.

---

### Internships

#### Eicher Tractors, Mandideep (MP)

January 6 to April 31 2025

- Worked as an Intern in the Finance Department and contributed to the processing of employee reimbursements using Excel and SAP; analysed employee travel expenses data to suggest cost cutting measures.
- Conducted retroactive impact analysis, physical inventory audits and dealer mapping using retail finance data. Helped in Inventory variance analysis and MIS team's tasks related to reporting.
- Created and presented a Market Analysis Report and [PowerBI Dashboard](#) using competitor's financial reports and Google trends data using Glimpse for the upper management.

#### 360 Analytika, Siliguri (WB)

June 1 to July 31 2024

- Worked as a Research Intern in the Research & Study department, where I generated the data analysis and visualisations for the company's online articles.
- Contributed to the research project on the "Policy Evaluation of the Kanyashree Scheme" on NFHS (National Family Health Survey) data and learnt about DID regression for impact evaluation studies.
- Analysed the data for the project "Financial Access and Use Trends in India" using Python Pandas Library. Also learnt about conducting market research using google trends data.

#### Telio Labs, Hyderabad (TG)

June 1 to July 15 2024

- Worked as an Intern in the EV department and learnt how their CMS (Central Management System) works for the EV charging stations.
- Learned Graphana observability tool and created visualizations using SQL Joins. Presented a comparative report on Graphana and other observability tools.

#### Cosmos System Integrators, Bhopal (MP)

July 1 to August 31 2023

- I worked as a Data Analyst Intern under the EV Cosmos team, where I conducted the data analysis for the company's EV charging financial data extracted from the CMS and presented the reports.
  - Created and posted social media posts for the marketing team and trained employees on using Canva.
  - Conducted Economic policies study on EV infra development in various states to inform the expansion decisions of the upper management and learned about EV Charging procedure and vehicles' BMS (Battery Management System).
-

## Academic Projects & Achievements

- Time series econometrics project - [Not All Digital Payments Are Equal: COVID-19's Divergent Impact on UPI and Aggregate Digital Payments in India](#) was a quasi-experimental study using Interrupted Time Series Design, which helped us find a research gap on the published trends on Covid -19's impact on digital payments.
  - Analysed Heckscher - Ohlin theory using powerbi for India's Import and Export Data uncovering a paradox using [PowerBI](#).
  - [Game Theory Solver](#) using python for pure and mixed strategy games.
  - Data Storytelling on [OECD Life Satisfaction Prediction using Logistic Regression in Python](#).
  - Python Django project [EconoInsight](#).
  - Hypothesis testing on [Dining Preferences](#) among students for the university's eateries using RStudio.
  - [PCA from Scratch](#) using OECD's Better Life Index Data.
- 

## Other Skills

- Technical: Proficient in Python, SQL, R, PowerBI, Blender3D, Luau programming language.
  - Languages known: English, Hindi, French (Basic)
- 

## Extra-Curricular Activities & Achievements

- Blender 3D artist and Online UGC Seller
- Event Head for Player's Story - Zavion Tech Fest hosted by Christ University Lavasa.
- Logistics Head - Econovation Club/ The Economic Forum (CUL)
- Editor - Blueprint - Department Level Magazine (CUL)
- Data Collection and Processing with Python - University of Michigan (Coursera)
- Social Media Data Analytics - University of Washington (Coursera)
- Applied Text Mining in Python - University of Michigan (Coursera)
- BCG GenAI Job Simulation - Forage
- Siemens Mobility - Project Manager Job Simulation - Forage
- Business Analytics and Text Mining Modelling using Python - NPTEL.
- Cloud Infrastructure AWS - Brainovision Solutions India Pvt. Ltd.
